

# QX-215AS

Double 15"  
Passive Subwoofer

ENNE

## KEY Features

- Ultra-Compact
- Very High Performance 4000W
- Versatile Sound reinforcement
- ARK optimised preset
- White & black colour optional

## Applications

- Club and Bar Installs
- House of Worship
- Live Sound
- Theatres
- Broadcast
- Multi media spaces

## Description

The power to size ratio achieved from this cabinet is quite spectacular. The QX-215AS is an extremely compact, very high power, passive sub-bass cabinet in triple band pass configuration delivering 2000W RMS.

It features dual 15" transducers (4" voice coil) with rubber surround for increased levels of pressure, double spider for improved control and linearity, weather protected cone for outdoor use and ventilated voice coil for improved heat dissipation. The QX-215AS has been designed to be used with the QX-12A and QX-15A to extend the low frequency support.

It is made from premium birch plywood and coated with high resistant water-based black paint, includes integrated handles, rubber feet and top hat insertion point for satellite combination with the QX Series.

## Specifications

Frequency Range (-10 dB)<sup>1</sup>: 35 Hz - 200 Hz

Frequency Response ( $\pm 3$ dB)<sup>1</sup>: 40 Hz - 150 Hz

Sensitivity (1w@1m): 98 dB

Nominal Impedance: 4 Ohms

Peak Maximum SPL: 137 dB

Power Rating: 2000W / 4000W / 8000W  
(Continuous<sup>2</sup>/Program/Peak)

Coverage Pattern: 360°

Dimension (H x W x D): 644mm x 463mm x 600mm

Net Weight: 59 Kg

LF Driver: 2 x 15",  $\Phi 4$ " voice coil

Input Connectors: 2 x Neutrik® Speakon® NL4MP

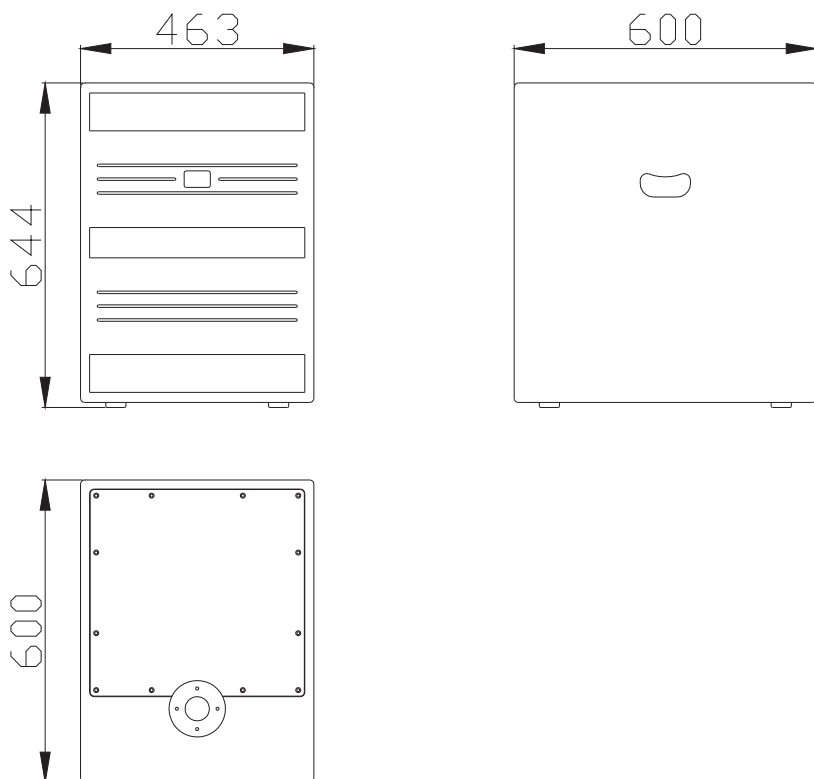

1. Calculated based on power rating and sensitivity

2. IEC Filtered Pink Noise with 6dB Crest Factor, 2 hours duration
